V1.10.0 Release Notes - LiveEdge® Cloud Control

2024-04-30 V1.10.0

Features

> **Cloud UI, Cloud API, and Cloud Agent** - Requires updating Cloud Agent to V1.10.0
  - **LiveEdge® Node only**
    - **Local UI password management**
      - Cloud UI and API users can now configure the local UI password via Cloud to prevent unauthorized users from changing settings via local network connection to the device UI
  - **LiveEdge® Max only** (Max upon next local firmware update V10.2.0)
    - **XML Control**
      - Cloud UI and API users can configure XML control on Max with the same functionality as Node
  - **LiveEdge® Node and LiveEdge® Max** (Max upon next local firmware update V10.2.0)
    - **Reset device settings**
      - Cloud UI and API users can send a command to Node and Max devices to perform a settings reset with the same functionality as via the local UI

Fixes

> **Cloud Agent -** Requires update to Cloud Agent V1.10.0
  - **LiveEdge® Max only** (Max upon next local firmware update V10.2.0)
    - Stopped Docker state from repeatedly updating in the event logs with no changes
