V1.12.3 Release Notes - LiveEdge® Cloud Control

2024-07-18 V1.12.3

Fixes

> **Cloud Agent** - Requires updating to Cloud Agent V1.12.3
- Device state reporting no longer stops when device has inconsistent internal hostname

> **Cloud UI** - Does not require Cloud Agent update
- Device info display will report "This device has incomplete state" in the event that a device is online but has not reported its state properly
