2026-04-02

LiveEdge® Node V12.0.1.163.3

Bundled Cloud Agent: V1.36.3

Bug Fixes / Improvements

- > Resolved elevated CPU utilization on Node devices
 - Product: Node only
 - Fixed an issue introduced in v12.0.0 related to new DNS process management.
 - CPU usage has been returned to expected, pre-12.0.0 levels.

Known Behaviors

- > If network conditions prevent access to Google public DNS servers (8.8.8.8 or 8.8.4.4), Docker image pulls may fail.
 - Product: Node only
 - This behavior is unchanged from pre-12.0.0 releases.
