

## V1.19.0 Release Notes - LiveEdge® Cloud Control

2024-09-04 V1.19.0

### Feature Additions

- > **Cloud Agent, API, and UI** - Requires updating to Cloud Agent V1.19.0
  - **Docker Container Directory**
    - Devices with Docker enabled via licensing can now take advantage of the Videon Docker Container Directory for ease of installation and management of Videon-verified Docker containers on Videon devices. Read more here: [Videon's LiveEdge Container Directory](#)

### Improvements and General Maintenance

- > **Cloud UI** - Does not require updating to Cloud Agent V1.19.0
  - **License details**
    - Users can now click on a license's name to see a list of the features that the license enables when assigned to a device
